EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. This application is in condition for allowance except for the presence of claims 61 and 62 to Group II which was treated as non-elected without traverse. Accordingly, claims 61 and 62 have been cancelled.

3. The following is an examiner's statement of reasons for allowance: The claimed invention now requires a step of determining the steroid responsiveness based on the ratio (or the equivalent step in claim 4 of determining the effective dose of the steroid based on the ratio). The prior art of Yap, in which Yap incidentally performed steps (a)-(c) of claim 1 as currently written does not provide a teaching or suggestion to perform the determination step of step (d). While Yap inherently compared the results as shown in his data, Yap never taught or suggested that the mRNA data could be used to differentiate between patients who were steroid responsive and those who were not. The other cited art of Steel does not remedy this omission because while Steel teaches some specific molecules for detection like SAA, Steel does not teach determining steroid responsiveness whatsoever. Chikanza also does not remedy this omission. Therefore, in view of the new limitation to include a step of determining the steroid

responsiveness based on the ratio, the claimed invention is novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (571)272-0782. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
